STOP-PID

FOAM

for children's scalp

Nature protects children's hair.

Only a specific, effective and safe product and, at the same time, natural and non-aggressive is ideal to protect and gently take care of your children's hair.

Popular shampoos are normally directly applied on the skin and then diluted in water whereas our ready-to-use foam has been specifically studied to suit your skin as it does not alter its hydrolipidic mantel.

The foam makes hair washing fun for your children! it is quick and easy to use with safe and effective results.

Main characteristics of STOP PID:

- ICEA Certified Product
- Nickel, chromium and cobalt tested to minimize the risk of skin allergies
- Natural origin, with extracts from organic agriculture
- Functional principles obtained without the use of solvents of synthetic origin
- No ethyl alcohol
- No parabens
- No synthetic colouring agents
- SLES/SLS free
- Dermatologically tested

All natural components of high quality:
pure Water,
natural foaming agents from Coconut and Palm Oil,
Thyme, Oregano,
Lemon grass and Geranium
organic essential oils,
organic Extravirgin Olive Oil,
organic Neem oil,
organic Soybean oil, organic Sweet Almonds oil,
Sea Salt, Vitamin E,
Citric Acid.

**ORGANIC CERTIFIED
COSMETIC PRODUCT**

STOP-PID, a product developed by Bema Cosmetici, is an innovative product as its foam formulation has a higher concentration of vegetal essential oils
(Multimix Complex based on Thyme, Lemon grass, Geranium and Oregano).
This helps to keep a longer "barrier effect" and to create an hostile environment hostile to the atmospheric attacks.
It prevents any problem caused by lice infestation.
It contains **Neem Oil** to soothe itch and **Sweet Almond Oil** to make hair soft and shiny.

Specific treatment for school-age and pre school-age children.

**ORGANIC PRODUCT
to PREVENT AND TREAT
THE LICES.**
