ICEA certified Eco Organic sun-protection line, with only physical filters, formulated to minimise the risk of skin allergies. Effective protection against UVA and UVB rays. Light and fluid texture, suitable for all skin types, even the most sensitive, an ideal protection for both the sea and the mountains. SolarTea the line that will give your complexion the right shade, keeping your skin fresh and protected in total safety. A real vitamin cocktail of wellness, with a coconut fragrance! ICEA certified Eco Organic sun-protection line, developed by the Bema Cosmetici research laboratories, guarantees every type of skin the best protection against the harmful effects of sun exposure. The use of physical filters such as Titanium Dioxide allows an active and safe protection against UVA and UVB rays; the new formula minimizes the risk of skin allergies and has an effective anti-ageing action, ensuring the skin's natural softness and elasticity.

Idralenix³
for delicate and sensitive skin of children

Idralenix = The powerful combination of plant extracts such as Rosemary, Chamomile, Green Tea, Gotu Kola, Licorice, Japanese Knotweed and Skullcap protects the skin from UV damage and has a calming, emollient and unreddening effect. **Specifically designed for the delicate and sensitive skin of children.**

Antiage³
for youthful and smooth skin

Antiage³ = a 360 degree anti-ageing effect, produced by the combination of Olive, Coriander and Black Pepper, which unite their properties to perform a block action on the radicals that are stimulated by sun exposure, detoxify the skin and protect it through a specific soothing and emollient action. **For youthful and smooth skin.**

Visibule Screen Complex[®]

is an exclusive complex of new-generation active ingredients developed in the Bema Cosmetici Research Laboratories. The combined action of **Lycopene, Verbascum, Knotgrass (Polygonum), Xanthophyll and Rice Oil** (rich in **Gamma-Oryzanol**) is based on a revolutionary scientific concept: the Blue light emitted by screens, smartphones and LED lights accelerates skin ageing and causes skin hyperpigmentation. These plant extracts are able to shield Blue and Red lights and reduce their harmful effects.

Vita³
for supple and rebalanced skin

Vita³ = Kakadu Plum, Matè, Acerola. An enhanced formula that provides the skin with a powerful source of concentrated vitamins. The Kakadu Plum is an extract that is rich in concentrated vitamin C, obtained by osmosis, therefore pure, stable and active, which associated with the Acerola extract exponentially increases its effect. The mix of vitamin C and Matè performs a specific antioxidant action. **For supple and rebalanced skin.**

Tea³
for firm and protected skin

Tea³ = Red, White and Green Tea. Three varieties of Tea, Red, White and Green that bring the skin minerals and antioxidants which improve the complexion, making the skin smoother and firmer. The polyphenols present help to prevent the formation of free radicals and exert a protective effect from the harmful ultraviolet rays. **For firm and protected skin.**

Nutri³
for soft and hydrated skin

Nutri³ = Argan Oil, Olive Oil, Shea Butter. Skin nourished and hydrated in depth, thanks to the Organic Argan Oil that releases its powerful antioxidants for an antiradical protection, the Organic Olive Oil Organic which remineralises the skin, nourishing it and giving it a smooth and supple appearance; the Shea butter made from a blend of lipids exerts an effective nourishing, emollient, toning and supplying action. **For soft and hydrated skin.**

Protection³
for fresh and silky skin

Protection³ = Brazil nut, Copaiba Balsam and Aloe. The Brazil nut which is rich in Selenium, along with the Copaiba Balsam, exert a soothing and unreddening action, helped by the Organic Aloe extract that provides greater hydration and regeneration, preventing redness and protecting the skin. **For fresh and silky skin.**

**Baby High Protection Sun Cream
Spf 50+**
Face and Body

Eco Organic protective sun cream, with mineral filters, suitable for the sensitive and delicate skin of babies, children and mothers during their first sun exposures. A constant source of vitamins, protects the skin in total safety against UVA and UVB rays, hydrates it without greasing and without creating barriers to the natural perspiration of the skin. Ideal for both the sea and the mountains.

**High Protection Sun Cream
Spf 30**
Face and Body

Eco Organic protective sun cream, with mineral filters, suitable for sensitive and very fair skin or for especially sensitive areas. A constant source of vitamins, protects the skin in total safety against UVA and UVB rays, hydrates it without greasing and without creating barriers to the natural perspiration of the skin. Ideal for both the sea and the mountains.

**Low Protection Sun Cream
Spf 10**
Face and Body

Eco Organic protective sun cream, with mineral filters, suitable for normal and sun-resistant, or already tanned skin. A constant source of vitamins, protects the skin in total safety against UVA and UVB rays, hydrates it without greasing and without creating barriers to the natural perspiration of the skin. Ideal for both the sea and the mountains.

**After-Sun Cream
Moisturising, soothing and protective**

A soothing cream, to moisturise and protect your skin after a day of exposition to the sun rays. Thanks to the fine organic functional ingredients contained in its formula, such as Aloe and Calendula, it performs an immediate refreshing and soothing action. The Kakadu Plum, with its very high content of vitamin C, protects the skin; the Annato oil intensifies, fixes and prolongs your tan. Suitable for any type of skin.

**Multi-Protection Sun Cream
Spf 50**
Face

Solar Eco Organic protective cream, with mineral filters, specific to protect the face' skin and sensitive areas. The mix of vitamins contained in Kakadu Plum, Acerola and Matè plays a photoprotective action that reduces the possibility of skin spots occurrence and protects the skin from the oxidative stress of the sun. Contains precious plant extracts such as Bio Argan Oil and a mix of fine Teas that leave the skin supple, compact and bright. Ideal for both the sea and the mountains.

**High Protection Sun Cream
Spf 50**
Face and Body

Eco Organic protective sun cream, with mineral filters, suitable for sensitive and very fair skin or for the first sun exposure. A constant source of vitamins, protects the skin in total safety against UVA and UVB rays, hydrates it without greasing and without creating barriers to the natural perspiration of the skin. Ideal for both the sea and the mountains.

**Medium Protection Sun Cream
Spf 20**
Face and Body

Eco Organic protective sun cream, with mineral filters, suitable for normal and sun-resistant skin. A constant source of vitamins, protects the skin in total safety against UVA and UVB rays, hydrates it without greasing and without creating barriers to the natural perspiration of the skin. Ideal for both the sea and the mountains.

**Anti-Age High Protection Sun Cream
Spf 30**
Face

Solar Eco Organic protective cream, with mineral filters, specific to protect the delicate skin of the face. The mix of vitamins contained in Kakadu Plum, Acerola and Matè plays a photoprotective action that reduces the possibility of skin spots occurrence and protects the skin from the oxidative stress of the sun. Contains precious plant extracts such as Bio Argan Oil and a mix of fine Teas that leave the skin supple, compact and bright. Ideal for both the sea and the mountains.

**Tan Accelerating Oil
Activates, accelerates, intensifies and prolongs the tan**

Spray Oil with Annato, Carrot and Karanja, rich in carotenoids, for a quick, intense and homogeneous tan. Your skin will be soft and hydrated thanks to the Copaiba Balsam and the Acai Oil. It can be applied even after a long exposure to the sun in order to set and prolong a tan and to have a soothing and restorative action thanks to the Andiroba Oil and Blueberry Oil. Ideal for those who want to speed up the tanning process.
